

AMRITA HOSPITALS

KOCHI • FARIDABAD • AMARAVATI

Exceptional Technology. Compassionate Care.

We invite you to join us for an informational meeting to explore exciting opportunities with Amrita Hospital – Faridabad, India (near Delhi), a brand new 2200 bed state-of-the-art tertiary care teaching hospital opening in the fall of 2018. The modern infrastructure will feature the latest technology to support the practice of evidence-based medicine, basic and clinical research, and provide cutting edge healthcare that is affordable and [socially responsible](#). We welcome physicians of all specialties and levels of career.

Dr. Prem Nair, Medical Director of Amrita Hospital - Kochi, is scheduling a series of informational meetings throughout the US and Canada to reach out to highly qualified doctors like you to further explore opportunities with Amrita Hospital –Faridabad. Details of the clinical scope, the depth of research, and the very competitive compensation and generous benefit package will be discussed.

The current [Amrita Hospital – Kochi](#), established in 1997, is a leading tertiary care facility with over 3.3 million square feet of built-up area over 125 acres of land. The 1400 bed facility supports a daily patient volume of ~3000 outpatients with 95 percent inpatient occupancy. More than 800,000 outpatients and nearly 50,000 inpatients are treated annually. Physicians, surgeons and other allied healthcare professionals of the highest caliber and experience offer comprehensive healthcare solutions comparable to the best hospitals in the world.

Amrita Kochi has 46 departments with post-graduate training programs in all medical and surgical sub-specialties including doctoral programs in basic and clinical research under Amrita University School of Medicine. Our highly-regarded transplantation teams conduct abdominal solid organ, hand, heart, bone marrow, and multi-organ transplants numbering approximately 600 per year. The hospital is the primary advanced training center for Asia Pacific in minimally-invasive and robotic surgery. Amrita also is the most comprehensive cancer center in the country with sub-specialty surgical oncology, high precision radiotherapy, medical oncology, pediatric oncology, and palliative and outreach care.
